

BUSINESS REQUIREMENTS DOCUMENT

Production & Filming Services Marketplace
منصة خدمات الإنتاج والتصوير

Version 1.0
Date: March 2026
Status: Draft

Revenue Model: Commission per Booking

Table of Contents

1. Executive Summary

This Business Requirements Document (BRD) defines the requirements for a comprehensive online marketplace platform designed to serve the film, television, and commercial production industry. The platform acts as an intermediary connecting production companies, freelancers, and individual clients with essential production resources including filming locations, professional equipment, models/talent for casting, and crew members (cinematographers, photographers, camera assistants, etc.).

The platform generates revenue through a commission-based model, taking a percentage fee from each successful booking made through the system. Service providers who manage bookings externally can block dates on the platform without commission charges, maintaining calendar accuracy while preserving business flexibility.

Key Objectives:

- Centralize production resource discovery and booking in one platform
- Ensure trust and transparency through admin verification, reviews, and employee-supervised visits
- Provide detailed filtering and search for talent, crew, locations, and equipment
- Implement robust policies for no-shows, equipment damage, and dispute resolution
- Support bilingual operation (English and Arabic)

الملخص التنفيذي

يُحدد هذا المستند متطلبات العمل لمنصة سوق إلكترونية شاملة مصممة لخدمة صناعة الإنتاج السينمائي والتلفزيوني والتجاري. تعمل المنصة كوسيط يربط شركات الإنتاج والمستقلين والعملاء بموارد الإنتاج الأساسية بما في ذلك مواقع التصوير والمعدات والعارضين/المواهب وطاقم العمل. نموذج الإيرادات: عمولة على كل حجز يتم عبر المنصة.

2. Stakeholder & User Roles

The platform supports the following user roles, each with specific permissions and capabilities:

Role	Description	Key Permissions
Admin	Platform administrator managing all operations, approvals, and disputes	Approve/reject locations, manage users, handle disputes, view all data, manage policies
Employee (Field Agent)	On-ground staff assigned to accompany clients during location visits to prevent fraud	View location maps, accompany clients, report visit outcomes, manage assigned visits
Location Owner	Individual or business offering filming locations for rent	Submit locations for review, manage availability calendar, block external dates, view bookings
Equipment Provider	Company with equipment inventory contracted with the platform	List equipment with details, manage rental status, upload condition photos, manage inventory
Model / Talent	Individual registering for casting opportunities with detailed profile attributes	Create/edit profile, manage availability, accept/decline bookings, view reviews
Crew Member	Professional crew (DP, 1st AC, 2nd AC, 3rd AC, photographer, etc.)	Create professional profile, specify roles, manage availability, showcase portfolio
Client (Renter)	Production company or freelancer seeking to rent resources or hire talent/crew	Browse, filter, book resources, request location visits, leave reviews, manage bookings

3. Core Feature Modules

3.1 Locations Module

The Locations Module enables location owners to submit filming locations for listing on the platform. All submissions undergo admin review before being published.

3.1.1 Location Submission & Approval

- Location owner submits location with photos, description, pricing, and availability
- Admin reviews the submission and approves or rejects with feedback
- Approved locations appear in the public listing with full details
- Alternatively, a client can contact an employee who will save the location on their behalf

3.1.2 Location Listing Features

- High-quality photos and detailed descriptions
- Pricing information (hourly, daily, or custom rates)
- Availability calendar with time slot selection
- Map view showing location (visible to employees only for security)
- External date blocking: owners can mark dates as rented externally (no platform commission)
- Reviews and ratings from previous renters

3.1.3 Employee Visit System

To prevent fraud and direct deals between location owners and clients, the platform assigns an employee (field agent) to accompany clients during location visits:

1. Client requests to visit a location
2. Platform assigns an available employee to the visit
3. Employee accompanies client to the location
4. Employee facilitates the deal and ensures platform involvement
5. Booking is completed through the platform with commission applied

3.2 Equipment Module

The Equipment Module allows contracted equipment companies to list their inventory for rental through the platform.

3.2.1 Equipment Listing

- Equipment provider (company account) lists items with detailed specifications
- Each item includes: photos, description, rental price, availability status
- Real-time status: Available, Rented, Under Maintenance
- Day and time selection for rental period
- External date blocking for off-platform rentals

3.2.2 Equipment Condition Tracking

To protect both the platform and equipment providers, a comprehensive condition tracking system is implemented:

- Photos uploaded before rental showing equipment condition
- Photos uploaded after return documenting any changes
- If damage is found, photo evidence serves as proof for dispute resolution
- Condition log maintained for each piece of equipment
- Contract terms between platform and equipment companies define liability

3.2.3 Equipment Contract Terms

- Platform enters into formal contracts with equipment companies
- Contract defines rental commission rates, damage liability, and dispute procedures
- Equipment companies are responsible for maintaining their inventory
- Platform facilitates damage claims using documented photo evidence

3.3 Models / Casting Module

The Models/Casting Module provides a comprehensive talent directory with advanced filtering capabilities.

3.3.1 Model Profile Attributes

Attribute	Type	Details
Full Name	Text	Legal name for contracts
Gender	Selection	Male, Female, Non-binary
Age	Number	Current age or date of birth
Skin Tone	Selection	Light, Medium, Dark, Olive, etc.
Height	Number	In cm or feet/inches
Weight	Number	In kg or lbs
Location/City	Text	Where the model is based
Experience Level	Selection	Beginner, Intermediate, Professional
Portfolio Photos	Media	Professional headshots and body shots
Availability Calendar	Calendar	Available dates and time slots

3.3.2 Advanced Filtering

- Filter by gender, age range, skin tone, height range, weight range
- Filter by location/city
- Filter by experience level
- Filter by availability (specific dates)
- Sort by rating, reviews, or relevance

3.4 Crew Module

The Crew Module allows film and photography professionals to create detailed profiles showcasing their roles, experience, and availability.

3.4.1 Crew Roles Supported

Role	Description
Director of Photography (DP)	Lead cinematographer responsible for visual storytelling
1st Assistant Camera (1st AC)	Focus puller, lens management
2nd Assistant Camera (2nd AC)	Clapper loader, camera reports
3rd Assistant Camera (3rd AC)	Camera trainee, equipment support
Photographer	Still photography for production or events
Videographer	Video production and filming
Gaffer	Chief lighting technician
Grip	Camera support and rigging
Sound Recordist	On-set audio recording

3.4.2 Crew Profile Features

- Professional profile with bio, experience, and portfolio
- Multiple role selection (a crew member can serve multiple roles)
- Availability calendar with time slot management
- Filtering by role, experience, location, and availability
- Reviews and ratings from previous clients
- Pricing information (daily rate, hourly rate)

3.5 Booking & Scheduling System

A unified booking system manages all resource types with calendar-based availability.

3.5.1 Booking Flow

6. Client browses and selects a resource (location, equipment, model, or crew)
7. Client selects desired date(s) and time slot(s)
8. System checks availability in real-time
9. Client submits booking request
10. Provider confirms or declines the booking
11. Upon confirmation, payment is processed with platform commission
12. Both parties receive booking confirmation with details

3.5.2 External Date Blocking

Providers can block dates for bookings made outside the platform. These external bookings:

- Do not incur platform commission (since they are not made through the platform)
- Are reflected in the availability calendar to prevent double-booking
- Require the provider to manually add the blocked dates and times
- Help maintain accurate availability information for all users

3.6 Reviews & Comments System

A comprehensive review system covers all resource types on the platform.

- Clients can leave reviews and star ratings (1-5) for locations, equipment, models, and crew
- Reviews include text comments and optional photo attachments
- Reviews are visible to all users browsing the platform
- Providers can respond to reviews
- Admin can moderate and remove inappropriate reviews
- Average rating displayed prominently on each listing
- Review history helps clients make informed booking decisions

4. Policies & Rules

4.1 No-Show Policy

This policy applies to ALL service providers on the platform including models, crew members, and any booked resource person.

Policy Terms:

- If a service provider fails to attend a confirmed and paid booking without prior notice:
 - First offense: Warning and mandatory rescheduling at no additional cost to the client
 - Second offense: Financial penalty (percentage of booking fee deducted from provider earnings)
 - Third offense: Temporary suspension from the platform (30 days)
 - Repeated offenses: Permanent ban from the platform
- Providers must cancel at least 24 hours before the booking to avoid penalties
- Emergency cancellations with valid proof (medical, etc.) may be exempted at admin discretion
- Clients receive full refund for no-show incidents

4.2 Equipment Damage Policy

- Pre-rental condition documented with timestamped photos
- Post-rental condition documented with timestamped photos
- Any discrepancy triggers a damage report with photo evidence
- Client is liable for damage beyond normal wear and tear
- Repair or replacement costs determined by equipment provider
- Platform mediates disputes using documented evidence
- Security deposit may be required for high-value equipment

4.3 External Booking Policy

- Providers may accept bookings outside the platform
- External bookings must be reflected by blocking dates/times on the platform calendar
- No commission is charged for external bookings
- This policy exists to maintain calendar accuracy and prevent double-booking
- Providers are encouraged to route bookings through the platform for trust and dispute protection

4.4 Equipment Provider Contract Terms

- Formal contract required between platform and each equipment company
- Contract defines: commission rates, liability for damage, insurance requirements
- Equipment companies must maintain their inventory in good working condition

- Platform reserves the right to delist poorly maintained equipment
- Annual contract review and renewal process

5. System Architecture

The following diagram illustrates the high-level system architecture of the platform, showing the relationships between major components and modules.

(See attached System Architecture Diagram - *system_architecture.mmd*)

5.1 Architecture Components

Component	Technology	Purpose
Frontend	React.js / Responsive Web App	User interface for all roles
Backend API	RESTful API / Edge Functions	Business logic, authentication, data processing
Database	PostgreSQL	Persistent data storage for all modules
File Storage	Cloud Storage (S3/equivalent)	Photos, documents, condition evidence
Authentication	JWT-based Auth System	User login, registration, role management
Payment Gateway	Stripe / Payment Provider	Commission processing, refunds
Notification Service	Email + Push Notifications	Booking confirmations, reminders, alerts
Maps Service	Google Maps API	Location mapping (employee-restricted view)

6. Entity Relationship Diagram

The following entities and their relationships form the core data model of the platform.

(See attached ER Diagram - *er_diagram.mmd*)

6.1 Core Entities

Entity	Key Attributes
Users	id, email, password_hash, full_name, phone, role, status, created_at
Locations	id, owner_id, title, description, address, lat, lng, price_hourly, price_daily, status (pending/approved/rejected), photos, created_at
Equipment	id, provider_id, name, description, category, price_daily, price_hourly, status (available/rented/maintenance), photos, created_at
Models	id, user_id, gender, age, skin_tone, height, weight, city, experience_level, portfolio_photos, bio
Crew Members	id, user_id, roles (array), bio, portfolio_url, daily_rate, hourly_rate, city, experience_years
Bookings	id, client_id, resource_type, resource_id, start_date, end_date, status, total_price, commission_amount, is_external
Reviews	id, reviewer_id, resource_type, resource_id, rating (1-5), comment, photos, created_at
Availability	id, resource_type, resource_id, date, start_time, end_time, is_blocked, block_reason
Equipment Condition Logs	id, equipment_id, booking_id, condition_before_photos, condition_after_photos, damage_reported, notes, created_at
Location Visits	id, location_id, client_id, employee_id, visit_date, status, notes
Policies	id, type, description, penalty_details, effective_date

7. User Flow Diagrams

The following user flows describe the key interactions within the platform.

(See attached User Flow Diagrams)

7.1 Location Booking Flow

13. Client searches for locations using filters (type, price, availability, area)
14. Client views location details, photos, reviews, and pricing
15. Client requests a site visit through the platform
16. Platform assigns an employee (field agent) to accompany the visit
17. Employee and client visit the location together
18. Client decides to book and selects dates/times
19. Payment processed through platform (commission deducted)
20. Booking confirmed, both parties notified

7.2 Equipment Rental Flow

1. Client browses equipment catalog with filters (category, price, availability)
2. Client selects equipment and desired rental period
3. Platform checks real-time availability
4. Client submits rental request
5. Equipment provider confirms availability
6. Pre-rental condition photos uploaded and documented
7. Payment processed with commission
8. Equipment delivered/picked up
9. Post-rental condition photos uploaded
10. Any damage assessed and reported with evidence

7.3 Model/Crew Hiring Flow

- Client searches for models or crew using advanced filters
- Client reviews profiles, portfolios, ratings, and availability
- Client sends booking request for specific dates
- Model/crew member accepts or declines
- Upon acceptance, payment processed with commission
- Both parties receive confirmation with booking details
- After the job, client leaves a review

7.4 Admin Review/Approval Flow

- Location owner or employee submits a new location
- Submission enters the admin review queue

- Admin reviews location details, photos, and information accuracy
- Admin approves (location goes live) or rejects (with feedback to submitter)
- Approved locations appear in public search results
- Admin can deactivate listings at any time if issues arise

8. Non-Functional Requirements

Requirement	Details
Responsive Design	Full functionality on desktop, tablet, and mobile devices
Multi-Language	Support for English and Arabic with RTL layout for Arabic
Security	Role-based access control, encrypted data, secure file uploads, JWT authentication
Payment Security	PCI-compliant payment processing, secure commission handling
Performance	Page load under 3 seconds, real-time availability updates
Scalability	Support for growing number of users, listings, and concurrent bookings
Data Backup	Automated daily backups with point-in-time recovery
Uptime	99.9% availability SLA target
Notifications	Email and push notifications for bookings, approvals, and alerts
SEO	Search engine optimized listings for organic traffic growth

9. ملخص باللغة العربية (Arabic Summary)

منصة خدمات الإنتاج والتصوير

نظرة عامة

هذه المنصة هي سوق إلكتروني شامل يخدم صناعة الإنتاج السينمائي والتلفزيوني والإعلاني. تعمل كوسيط بين مقدمي الخدمات والعملاء مع نموذج إيرادات قائم على العمولة.

الوحدات الرئيسية

١. مواقع التصوير: تقديم مواقع للتصوير مع مراجعة المسؤول ونظام الحجز والتقييمات
٢. المعدات: تأجير المعدات مع تتبع الحالة والتصوير قبل وبعد الاستخدام
٣. العارضون/المواهب: ملفات تعريفية مفصلة مع تصفية متقدمة حسب العمر والجنس والطول وغيرها
٤. طاقم العمل: ملفات مهنية لمدير التصوير ومساعد الكامييرا والمصورين

السياسات

سياسة عدم الحضور: عقوبات تتصاعد من التحذير إلى الحظر الدائم لجميع مقدمي الخدمات
سياسة الأضرار: توثيق بالصور قبل وبعد الاستخدام لحل النزاعات
سياسة الحجز الخارجي: يمكن لمقدمي الخدمات حظر التواريخ للحجوزات خارج المنصة بدون عمولة
